

# CPDX SERIES DESCRIPTION

## Economy Spur Planetary Gearbox

Candy's CPDX Series is an economy, in-line, rotary flange style planetary gearbox with less than 6 arc minutes backlash. The CPDX is a compact servo gearbox featuring lower inertia, higher efficiency and reduced noise compared to the first generation design.

- Economy, in-line planetary servo gearbox
- 6 arc minutes backlash for single stage, 8 for double stage
- 1 and 2 stages with available ratios from 3:1 up to 100:1
- Compact structure featuring rotary flange output
- Input design accommodates most appropriately sized servo motors
